***Election/Restrictions***

1. The restriction between groups I and III is withdrawn in view of applicants' that Groups I and III are obvious over each other and are not patentably distinct.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-5,11-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 12 stand rejected for claiming amounts of  $\text{ZrO}_2$  that are not possible while maintaining the claimed ratio of  $\text{TiO}_2/\text{ZrO}_2$  between 2.2 and 4.5. For example if the  $\text{ZrO}_2$  content were 2.5 the amount of  $\text{TiO}_2$  would have to be at a minimum 5.5 wt% (to maintain a ratio of 2.2) which is outside the claimed range. For compositions to have the claimed  $\text{TiO}_2/\text{ZrO}_2$  the maximum amount of  $\text{ZrO}_2$  would be 1.59 wt%.  $3.5/1.59=2.2$ . Applicants argue one of ordinary skill in the art can determine what compositions fall inside and outside the [claimed] limitations. This is not persuasive because amounts of  $\text{ZrO}_2$  claimed 1.59 wt% to 2.5 wt% are not possible while maintaining the claimed  $\text{TiO}_2/\text{ZrO}_2$  ratio. It is not clear whether the claimed  $\text{TiO}_2/\text{ZrO}_2$  ratio is a required limitation of the claim if amounts of  $\text{ZrO}_2$  are being claimed that are not possible to maintain the ratio.

***Conclusion***

4. The rejections over the prior art references are withdrawn in view of applicants' argument that the prior art of record fails to teach the claimed ratio of  $\text{TiO}_2/\text{ZrO}_2$  between 2.2 and 4.5 and the unexpected results achieved by maintaining this ratio.

5. Should the above  $\text{TiO}_2/\text{ZrO}_2$  ratio be removed from the claims, in response to the above 112 rejection, the prior art rejections may be reinstated and the finality of the rejection will be maintained.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
